📍 Abuja, Nigeria

PROFILE

I'm a highly skilled software developer (web and application) with over 4 years of experience crafting user-centric interfaces and maintaining clean, scalable codebases. I thrive in collaborative environments, where I can share knowledge and contribute to the planning and execution of innovative projects.

My expertise includes:

- Translate designs into beautiful and user-friendly interfaces, ensuring a seamless user experience across all devices.
- Write clean, maintainable, and well-structured front-end code, adhering to best practices.
- Leverage Next.js and React to build dynamic and responsive web applications.
- Utilize version control systems like Git to manage code efficiently.
- Contributing to clear technical specifications for project clarity
- Actively participating in planning meetings to define priorities and features

Beyond the code, I bring excellent problem-solving skills and a critical thinking mindset to tackle even the most complex challenges. I leverage my experience with React, NextJs, TypeScript, and debugging tools to deliver exceptional user experiences.

I'm excited to leverage my skills and collaborate with your team to build the future!

{ } PROJECTS

Pure Glamour

Booking automation web Application with an admin CMS system using NEXTJS, typescript tailwindcss and prisma ORM.

Rate Am

RateAm is a digital product that enables you to rate calls, locations and even businesses.

UOALC

Created a law firm web application, which is mobile responsive. Using react JS as my frontend and laravel and mysql as my backend.

Benzit integrated

Benzit Integrated Services, a real estate agency web application

This application also came with a custom admin panel to add, edit and receive data from the application.

Synewaxe
